

**Marquee Artisan Wines** is an American negociant bringing US consumers what we know Australia can provide—sophisticated fruit-forward wines that represent a great value for the price!

Not just another brand crafted in bulk from a large multinational company, Marquee hand-selects the best fruit available and blends our products in a distinctive house style.

Marquee provides our partners, retailers, restaurants and consumers a brand they can trust to deliver high quality for an affordable price. Check out what the press is saying about the Marquee Classic Series:

## WINE SPECTATOR

“ Extensive tasting suggests that some of the better brands for red wines at \$10 and less are Bulletin Place, Lindemans, The Little Penguin, **Marquee** and Oxford landing. All of them produced at least two wines in that price range that scored very good, at 85 points or better. That’s what Australia has always done best—overdeliver on quality. ”

Harvey Steiman
